(EN) Every evening, the many voices of the congress are brought together in a single forum. Once the sessions of at the CCIB have concluded, speakers who have participated in parallel throughout the day are invited to the stage at Les Tres Xemeneies del Besòs to take part in an open, informal and unpredictable conversation. With no prepared presentations or prior scripts, the dialogue takes as its point of departure the questions that run through the congress —time, transformation, becoming— before freely drifting towards unexpected territories. Afterwards, food, drinks and music extend the conversation by the sea as the sun sets.

(CAT) Cada vespre, les múltiples veus del congrés es reuneixen en un únic fòrum. Un cop finalitzades les sessions al CCIB, els ponents que han participat en paral·lel al llarg del dia són convidats a pujar a l'escenari de les Tres Xemeneies del Besòs per prendre part en una conversa oberta, informal i imprevisible. Sense presentacions preparades ni guions previs, el diàleg pren com a punt de partida les qüestions que travessen el congrés —el temps, la transformació i l'esdevenir— per derivar lliurement cap a territoris inesperats. Després, la conversa continua vora el mar mentre es pon el sol, acompanyada de menjar, begudes i música

29 June / *Juny* / Junio

^(EN) *Short and Long-term*

The speakers from Becoming More-than-human and Becoming Circular share the stage to address the paradoxical tension between the urgency of present needs and desired long-term horizons: persistent infrastructures and topographies open to adaptation, appropriation and gradual collective transformation over time.

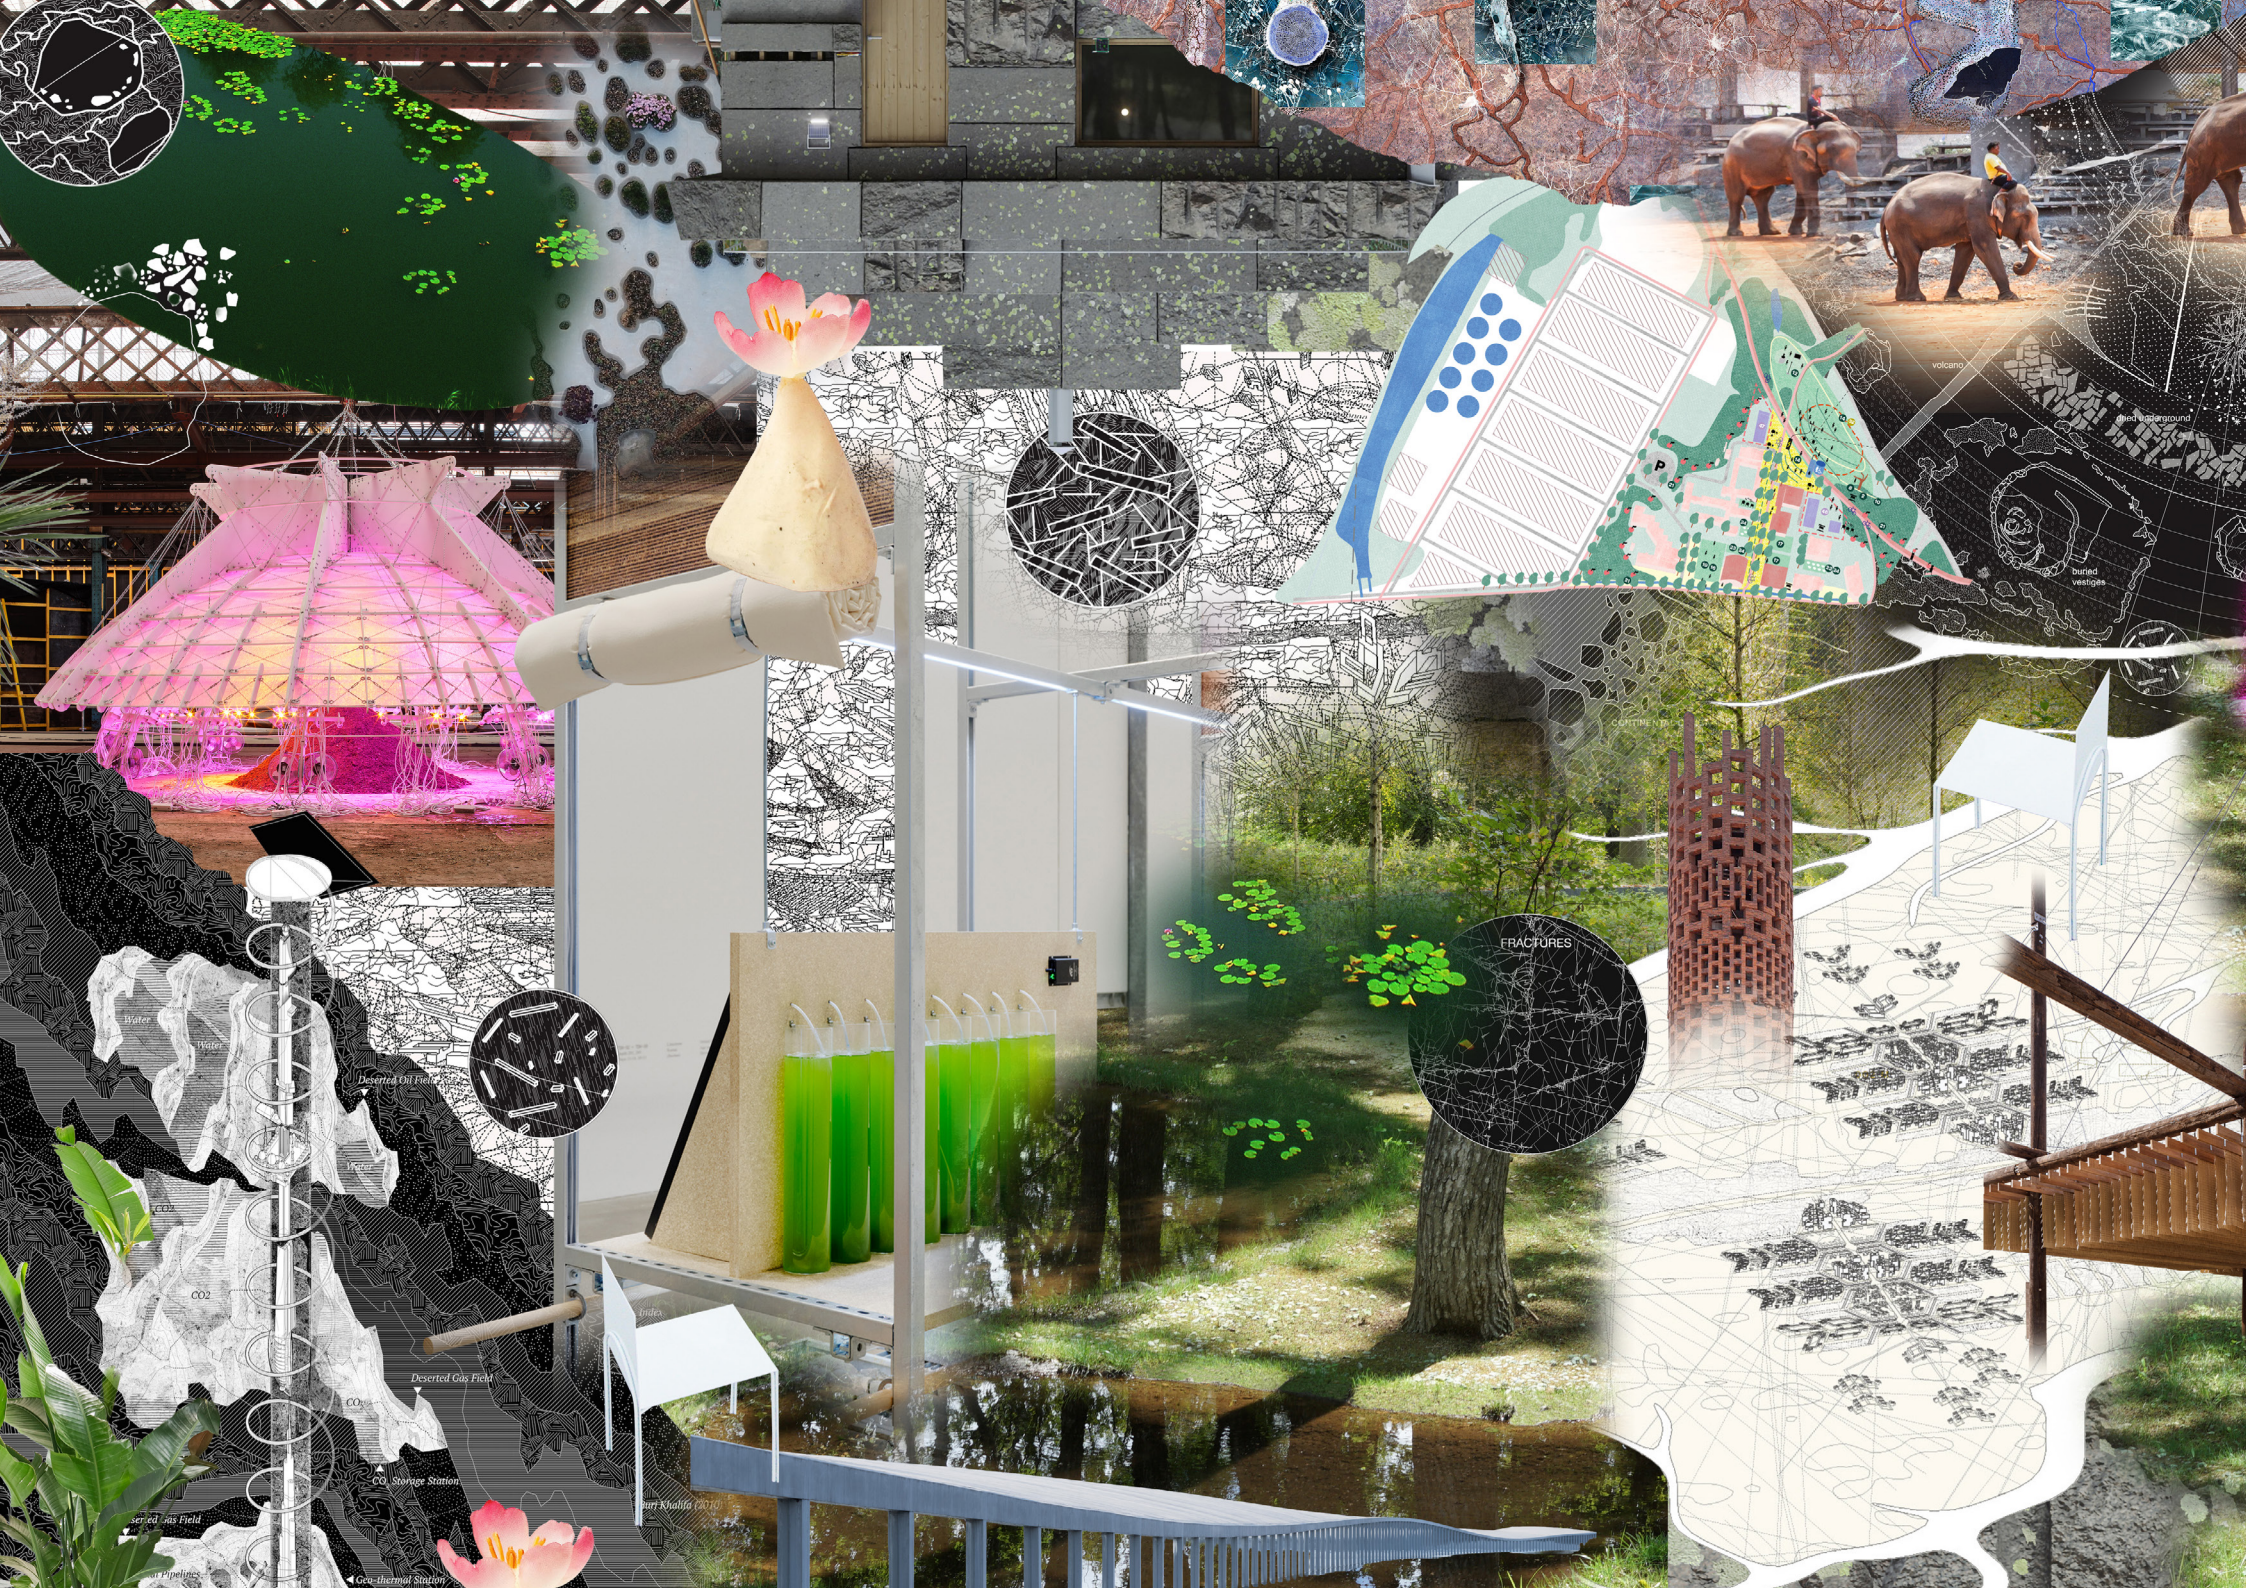

^(CAT) *A curt i llarg termini*

Els ponents de Becoming More-than-human i Becoming Circular ocupen l'escenari per obrir una conversa sobre les relacions entre passat i futur en la pràctica de l'espai: partir del que existeix, activar contextos materials i immaterials i imaginar alternatives venidores obertes i esperançadores

30 June / *Juny* / Junio

^(EN) *Agencies between Past and Future*

The speakers from Becoming Embodied and Becoming Interdependent take the stage to explore how past and future forces are entangled in the production of space: departing from existing material and cultural legacies – carefully safeguarded, altered, inhabited or radically distorted – to catalyse oriented alternatives towards hopeful yet open-ended prospects.

^(CAT) *Agències entre passat i futur*

Els ponents de Becoming Embodied i Becoming Interdependent pugen a l'escenari per explorar com les forces del passat i del futur s'entrellacen en la producció de l'espai: partint de llegats materials i culturals existents —curosament preservats, alterats, habitats o radicalment distorsionats— per catalitzar alternatives orientades cap a futurs esperançadors i oberts.

^(EN) About the International Union of Architects (UIA) Founded in 1948, the International Union of Architects / Union Internationale des Architectes (UIA) is a federation of national professional organisations working to unify architects, influence public policies and advance architecture in service to the needs of society. The organisation is recognised as the only global architecture organisation by most United Nations agencies.

Through its Member Sections - the professional structures protecting the interests of the majority of architects in a country or territory -, the UIA represents the architectural profession in more than 120 countries and territories around the world. UIA Member Sections play a key role in connecting local professional communities with global discussions on architecture, the built environment and public policy.

They contribute with expertise, participate in international working bodies and collaborate on initiatives addressing global challenges such as sustainability, urban development, cultural heritage and social inclusion.

^(CA) Fundada l'any 1948, la Unió Internacional d'Arquitectes (UIA) és una federació d'organitzacions professionals nacionals que treballa per unir els arquitectes, influir en les polítiques públiques i impulsar l'arquitectura al servei de les necessitats de la societat. L'organització és reconeguda per la majoria de les agències de les Nacions Unides com l'única organització mundial d'arquitectura.

A través de les seves Seccions Membres —les estructures professionals que protegeixen els interessos de la majoria dels arquitectes d'un país o territori—, la UIA representa la professió arquitectònica en més de 120 països i territoris d'arreu del món. Les Seccions Membres de la UIA tenen un paper clau en la connexió

de les comunitats professionals locals amb els debats globals sobre arquitectura, entorn construït i polítiques públiques.

Aporten expertesa, participen en òrgans de treball internacionals i col·laboren en iniciatives que aborden reptes globals com la sostenibilitat, el desenvolupament urbà, el patrimoni cultural i la inclusió social.

(ES) Fundada en 1948, la Unión Internacional de Arquitectos (UIA) es una federación de organizaciones profesionales nacionales que trabaja para unir a los arquitectos, influir en las políticas públicas y promover la arquitectura al servicio de las necesidades de la sociedad. La organización está reconocida por la mayoría de las agencias de las Naciones Unidas como la única organización mundial de arquitectura.

A través de sus Secciones Miembro —las estructuras profesionales que protegen los intereses de la mayoría de los arquitectos de un país o territorio—, la UIA representa a la profesión arquitectónica en más de 120 países y territorios de todo el mundo. Las Secciones Miembro de la UIA desempeñan un papel fundamental en la conexión de las comunidades profesionales locales con los debates globales sobre arquitectura, entorno construido y políticas públicas.

Aportan conocimiento especializado, participan en órganos de trabajo internacionales y colaboran en iniciativas que abordan desafíos globales como la sostenibilidad, el desarrollo urbano, el patrimonio cultural y la inclusión social.

Itineraries

^(EN) Each of the six conceptual themes of the conference will feature two half-day itineraries, offering two ways of interpreting the same concept through architectural works, infrastructure and urban spaces relevant to the city and its surroundings. Covering a broad time span — beyond nostalgia or novelty — these crafted circuits will help us understand that these concerns present in the Becoming theme, although changing, have been consistently present over time in architectural practice.

^(CA) Cada un dels 6 eixos conceptuals del congrés comptarà amb dos itineraris de mitja jornada; dues maneres de llegir el mateix concepte a través d'obres arquitectòniques, infraestructures i espais urbans rellevants per a la ciutat i el seu entorn. Emmarcades dintre d'un ampli ventall temporal —més enllà de la nostàlgia o la novetat— aquests itineraris volen ajudar a entendre que les preocupacions presents en la temàtica Becoming, encara que canviants, s'han anat presentant de manera sostinguda en el temps al voltant de la pràctica arquitectònica.

^(ES) Cada uno de los 6 ejes conceptuales del congreso contará con 2 itinerarios de media jornada; dos formas de leer el mismo concepto a través de obras arquitectónicas, infraestructuras y espacios urbanos relevantes para la ciudad y su entorno, abarcando un amplio abanico temporal —más allá de la nostalgia o la novedad. Esta selección pretende poner de relieve cómo las preocupaciones presentes en la temática Becoming, aunque cambiantes, se han ido presentando de forma sostenida en el tiempo en torno a la práctica arquitectónica.

(EN) Another tour is offered in parallel – outside the conceptual framework of the conference – to help us understand the evolution and future challenges of Barcelona and its coastline, from a maritime perspective. A boat trip, on the popular Golondrinas, will depart from the old town to dock at the Barcelona International Convention Center (CCIB), the main venue for the conference.

(CA) En paral·lel, i fora dels eixos conceptuals del congrés, s'ofereix un itinerari ruta per entendre l'evolució i els reptes de futur de la ciutat de Barcelona i el seu litoral, vistos des del mar, en un recorregut amb vaixell que surt del nucli antic de la ciutat fins arribar al Centre de Convencions Internacional de Barcelona (CCIB) —seu principal del congrés— mitjançant les populars Golondrines.

(ES) En paralelo, y fuera de los ejes conceptuales del congreso, se ofrece un itinerario para entender la evolución y los retos de futuro de la ciudad de Barcelona y su litoral, vistos desde el mar, en un recorrido en barco desde el casco antiguo de la ciudad hasta el Centro de Convenciones Internacional de Barcelona —sede principal del congreso— mediante las populares Golondrinas.
